GROUND OF REJECTION

Claims 1-3, 5-14 and 16-21 have been rejected under 35 U.S.C. §103(a) as allegedly being unpatentable over further consideration of U.S. Patent No. 6,288,753 by DeNicola et al. The rejection alleges that DeNicola discloses a method for administering exam content and that it would be obvious to employ a student picture for verification purposes even though DeNicola discloses neither the transmission of pictures during an exam nor the storage of student pictures for verification purposes.
